

About me

I am Veljko Miljković, a 22-year-old student at the Belgrade University's School of Electrical and Computer Engineering. I am currently in the final stages of my studies, with only one exam remaining until completion. My passion lies in web development, particularly in the frontend domain. I am motivated to gain practical experience and apply my knowledge in the real world. With a desire for continuous growth and improvement, I am ready to contribute as a member of your team and learn from experienced professionals in the industry.
